

Performance Dog Medicine  
A Mobile Veterinary Clinic

Diana K Phillips, DVM dkpdvm@mac.com  
Lorin Dewees Ldewees@sonic.net

**Sonoma Wine Country SDT March 15-17, 2014**

**Zamora Hills SDT March 21-24, 2014**

**Also at our co-op in Santa Rosa**

**Suzy Applegate's Ranch**

**Your ranch or home**

**Rabies**

We all know about Rabies. Rabies is the only canine vaccine that is required in every state in the United States. Because it is almost always fatal, Rabies is the most important zoonotic disease that can be transmitted from dogs and cats to human beings.

Dr Ron Schultz was the pioneer in proving that Distemper-Adeno - Parvo virus vaccine lasts more than 1 year. He set up the Rabies Challenge project expecting to see Rabies Vaccine protection last 5-7 years. He spoke at a conference this past fall and he found that the protective titre drops rapidly after 3 years. He is continuing the study.

**The first Rabies Vaccine is repeated in 1 year then every 3 years.**

Lorin and I continue to expand our mobile veterinary clinic.

We focus on performance working dogs and understand their special needs. We can examine and evaluate a specific problem such as ears, lameness, skin, remove fox tails, or address any of your concerns. In addition we do minor surgical procedures with local anesthetic.

Our veterinary medications for dogs and livestock are affordable which is consistent with our approach to our practice; high quality veterinary care at reasonable prices.

We are now accepting **Mastercard, Visa, Discover and American Express** for services and medications. Shipping is available.

Services include:

- Annual exam, Physical, Lameness Exam
- Veterinary quality vaccines
- Heartworm test
- Medications including Metacam, Adequan,
- Domestic and international health travel certificates
- Trial veterinary service
- Livestock medications drop shipped to your ranch
- additional services, medications upon request
